CAREER OBJECTIVE

Front-End Developer specializing in React and Next.js (App Router), with hands-on experience building production-grade Arabic RTL e-commerce platforms, restaurant ordering systems, and animated landing pages. Proficient in TypeScript, Tailwind CSS, Zustand, and Framer Motion. Seeking a challenging front-end role where I can deliver high-quality, performant, and accessible web experiences.

TECHNICAL SKILLS

Core Technologies: HTML5 • CSS3 • JavaScript (ES6+) • TypeScript

Frameworks & Libraries: React • Next.js 14 (App Router) • Framer Motion • Zustand • SCSS • Bootstrap 5

Styling: Tailwind CSS • CSS Grid • Flexbox • Responsive Design • RTL Support

Tools & Workflow: Git • GitHub • Figma • Postman • Biome • Vercel • RESTful APIs • JSON

Concepts: SSR / SSG • generateStaticParams • SEO • WhatsApp API Integration • Component Architecture

Soft Skills: Team Player • Self-Learner • Adaptability • Responsibility

Languages: Arabic (Native) • English (A2)

PROJECTS

Personal Portfolio Website

Stack: Next.js 14 • Tailwind CSS • shadcn/ui • Framer Motion • Vercel

- Designed and built a fully responsive personal portfolio showcasing all projects and skills.
- Deployed on Vercel with CI/CD via GitHub Actions for automatic deployments on every push.
- Built with Next.js App Router, Tailwind CSS, and shadcn/ui component library.

Dokkanhudoom (دكان هودوم) — Arabic RTL E-Commerce

Stack: Next.js 14 • Zustand • Framer Motion • Tailwind CSS • TypeScript

- Full Arabic RTL men's fashion e-commerce platform with product listing, cart, and checkout flow.
- Implemented Zustand state management with persisted cart and dynamic product routing.
- Built smooth page transitions and micro-interactions with Framer Motion.
- Applied generateStaticParams for static product pages and optimized SEO.

Maxim Café — Arabic RTL Landing Page

Stack: Next.js · Framer Motion · Tailwind CSS · Biome

- Front-End Arabic RTL landing page with orange theme and animated 3D components.
- Configured Biome as the linting/formatting toolchain on a Linux environment.
- Implemented scroll-triggered animations and responsive layout for mobile and desktop.

Hajj Mahfouz Restaurant (مطعم الحاج محفوظ)

Stack: Next.js 14 · CartContext · WhatsApp API · Framer Motion

- Complete restaurant website with a multi-category menu (9 categories) and an animated cart system.
- Integrated WhatsApp ordering: orders are sent directly as formatted WhatsApp messages.
- Built a reusable component-based architecture with animated menu views and mobile-first design.

INTERNSHIP EXPERIENCE

Front-End Developer Intern — Route IT Training Center, Cairo July 2022 – December 2022

- Built responsive web pages using HTML, CSS, JavaScript across multiple training projects.
- Collaborated with student teams to develop and iterate on UI components.
- Practiced modern front-end workflows including version control with Git and UI prototyping in Figma.
- Applied clean code principles and cross-browser compatibility best practices.

EDUCATION

College of Technology and Industrial Education — Bani Sweif, Egypt Graduated 2020 | Excellence

Udacity — Professional Front-End Web Development Nanodegree January 2023

- Built responsive websites using CSS Flexbox, Grid, and JavaScript.
- Completed projects: Landing Page and Weather Journal App.
